

ELERS[®]
MEDICAL

RECYCLABLE Privacy Curtains

Intelligent cleanliness

Privacy curtains surrounding patient beds are constantly touched and may fast become breeding grounds for resistant bacteria, posing a threat to patient safety. Disposable curtains treated with ELERS MEDICAL[®] antimicrobial inhibits the growth of bacteria on the curtain surface. Our clean and cost effective, Flame retardant tested and 100% recyclable privacy curtain is a perfect solution for all healthcare facilities. ELERS MEDICAL disposable privacy curtains are available as antimicrobial treated or untreated and in a wide choice of colors and sizes.

- ✓ **100% Recyclable**
- ✓ **Safe.** Safer for patients, staff and visitors.
- ✓ **Clean.** Treated with ELERS MEDICAL[®] technology antimicrobial to inhibit the growth of bacteria and other micro-organism on the surface of the curtain.
- ✓ **Cost effective.** No laundering or costly initial capital expenditures. Significant cost savings over traditional textile curtains.
- ✓ **International Flame Retardant Approvals.** Tested to BS 5867: Part 2 Type C and NFPA 701. The FR properties remain with the curtain during its life time.
- ✓ **Easy and fast to hang and remove.** Range of different hanging systems available, compatible with most commonly used track systems.
- ✓ **Responsible.** Manufactured in Europe with high quality standards.

RECYCLABLE Privacy Curtains

Antimicrobial treated, cost effective and safe.
Protection is the best prevention.

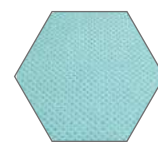

ELERS MEDICAL Privacy Curtains are manufactured from 100% Polypropylene and are fully recyclable. Recyclable polypropylene curtains save Healthcare facilities from using millions of gallons of water, harsh laundering chemicals and directly lower energy usage. By recycling disposable polypropylene curtains, carbon dioxide emissions are reduced and allow hospital and healthcare facilities to meet environmental targets, thus keeping the planet green.
